

COMPANY PROFILE

Omiksa Technologies

Custom platforms, mobile apps, SaaS and PaaS — built, hosted and supported end to end by the team that wrote them.

OMIKSA TECHNOLOGIES LLC · UAE

Product development and engineering

Enterprise platforms, AI agents, aerial intelligence and custom business systems — including our own products, Univo, the AI Agent Suite and AirFathom.

OMIKSA ASSOCIATES · INDIA

Business and technology consulting

Engagement scoping and advisory, supported by the same shared engineering team. Two businesses, one engineering standard.

WHAT WE DELIVER

01

Custom platforms

Enterprise systems, integrations and infrastructure, built around how the business runs.

02

Mobile apps

iOS and Android — customer, field and staff apps connected to the back office.

03

SaaS

Ready products, licensed by module and configured without code.

04

PaaS

Platforms and APIs we build and run for you, in the cloud or on-premise.

SUPPORTED END TO END

Discover

Workshops, requirements and a signed-off scope.

Build

Short sprints, working demos and automated tests.

Deploy

Cloud or on-premise, migration and training.

Host

Monitoring, backups and uptime targets.

Maintain

Fixes, upgrades and enhancements.

Principal-led

The architect who scopes the work stays accountable for delivery.

Client-owned data

Deployed on your cloud or servers. Your data stays yours.

Named approvals

Every change and release is approved and recorded.

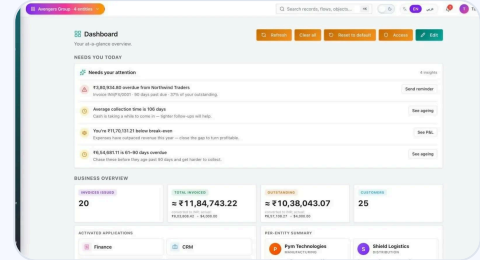

OUR PRODUCTS

Three platforms we build, host and support ourselves.

SAAS · ENTERPRISE SOFTWARE

Univo

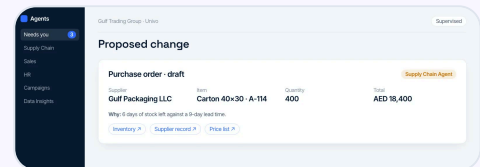

One system for finance, CRM, people, projects and approvals, for every entity, in English and Arabic. VAT invoicing, WPS payroll and IFRS-aligned reporting.

SAAS · AI AND AUTOMATION

AI Agent Suite

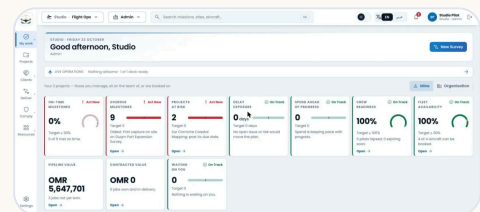

Specialist agents inside the systems a team already uses, with a named approval on every change. Seven agents, led by a Personal Assistant that sits on top of them all and runs the day. Cloud or on-premise.

PAAS · AERIAL INTELLIGENCE

AirFathom

The system of record for aerial survey work, from tender to signed deliverable — SORA compliance, Drone-in-a-Box and open-source 3D processing.

PROVEN IN PRODUCTION

1,000+

Banking transaction automation

Transactions a day; ₹5 crore processed.

-20%

Multi-tenant AI data platform

Running cost, for a government-sector platform; 22% faster.

<80 ms

High-performance data APIs

Cached queries over 20 million records.

3 roles

Rehabilitation management

Doctors, therapists and management on one platform.

300 GB

Secure media file platform

Single files, with resumable uploads, for a media studio.

CI/CD

Deployment and operations

Docker, Kubernetes and Jenkins, run for life.

SECTORS

- ✓ **Energy and trading** — multi-entity ERP, consolidated finance and taxation.
- ✓ **Infrastructure and construction** — aerial inspection, survey analytics and progress reporting.
- ✓ **Logistics** — aerial data and operational workflows for field activity.
- ✓ **Healthcare and professional bodies** — secure examinations, assessment and results.
- ✓ **Business operations, across sectors** — ERP, CRM, campaigns, sales assistance and approvals.

PARTNER WITH US

License

Univo, AI Agent Suite, AirFathom.

Implement

Fixed-scope, architect-led.

Build

Custom systems, IP agreed upfront.

Deliver together

Joint practices and partnerships.

TENDER READINESS

- ✓ **Data sovereignty** — on-premise, single-tenant or air-gapped; AI models self-hosted.
- ✓ **Regional compliance** — VAT, WPS and IFRS-aligned, in English and Arabic.
- ✓ **Controls and audit** — four-eyes approvals and full change history.
- ✓ **Aviation compliance** — SORA, pilot currency, airspace and weather checks.
- ✓ **Integration** — connectors, documented APIs and e-signatures.
- ✓ **Delivery assurance** — fixed scope and automated test suites.
- ✓ **Bid support and proof of concept** — compliance matrices, pilots and demo flights.
